Wise Academic Camp (Summer only)

9am-1pm
Monday-Thursday

Session 1: June 20th-July 15th (4 weeks for a total of \$1,600.00)
Session 2: July 18th-August 12th (4 weeks for a total of \$1,600.00)

We are currently offering a great summer “Academic Camp” program for students K-12th grade. This program will teach students a variety of new skills and strategies, fill in foundation skill holes, address content areas across the curriculum, pre-teach concepts for the following school year and more. The small class size is perfect for social interaction, while still enabling each student to receive the attention needed to progress quickly and reach their academic goals.

- Students will be grouped into classes of 3-6 students by age, ability, and interests.
- The curriculum is custom designed for each student.
- Activities are "hands on" and fun for all ages!
- We include a variety of academics, enrichment, social skills, and sports
- Please call to inquire about specifics pertaining to your child.

General Tutoring Information

Wise Learning offers 1-on-1 tutoring to students of all ages. All programs are custom designed for each student's learning style and personality. During the school year, we can use homework to develop skills and strategies for each student. We focus on areas such as executive function, organization, outlining, pre-writing, study skills, note taking, test taking, attention, etc. During the summer, we focus on these areas using materials that are of interest to each student. All activities are hands on, creative, and fun for all ages. All of these skills foster independence, high self-esteem, and a life-time of learning success. As part of each student's program, we communicate on an as needed basis with anyone who is working with your child such as teachers, therapists, and other professionals. All of our teachers are certified and have extensive experience with all different types of learners.

Full price no commitment option: \$110/hour

This is our full price rate which is perfect for those who have busy schedules. There are no commitments, you can cancel and not be charged as long as you give 48 hours notice.

1st summer tutoring session: \$75/hour for 24 hours minimum

- June 20th-August 12th
- This is an 8 week period that you are committed to a minimum of 24 total hours
- A schedule will be determined based on student needs and teacher assignment
- All hours must be completed on or before August 12th

2nd summer tutoring session: \$75/hour for 3 hours minimum

- Week of August 15th
- This is a 1 week period that you are committed to a minimum of 3 total hours
- This is a great time to fit in a few more hours of summer work, prep for the new school year, and anything else that you may need
- All hours must be completed on or before August 19th

Summer Foundations Program (Full year program available in Fall)

20 hour per week Foundation Programs: \$4,000 for any consecutive 4 weeks

This program is a one-on-one intensive program designed for students who are struggling in their current school placement and need a short term intensive program to fill in foundation skill holes and gain the skills and strategies they need to be independent and successful. Our goal with this program is to get each student to where they want to be as quickly as possible.

The summer is the perfect time to fill in foundation skill holes and apply those skills to new situations. All of our teachers have experience with filling in skill holes and pre-teaching new skills and strategies along with content for the next school year.

The curriculum is completely customized and individualized by the teacher and our director of curriculum and instruction. This curriculum will coincide with the goals that the parents, teachers, and students all have.

SAT/ACT Test Prep

We are offering one-on-one test prep sessions to help our students prepare for the SAT/ACT's. There is no better time than the summer to prepare for standardized tests. These tests are timed standardized tests that students and parents often worry about. We can help!

Scheduling and rates are the same as our “general tutoring” on page 3

These sessions will cover:

- **Test Taking Strategies:** Standardized tests require skills and strategies that must be taught to students in order for them to score well. These sessions will make students aware of the scoring system, the format of the test, and the best strategies to use to answer each type of question. We will discuss time management, how to outline for writing, and custom design strategies for their unique learning style that they can use on the test. This can also be applied to their daily school work.
- **Content Area:** We all know these tests are packed with difficult content in areas of Math, English, etc. Our classes will combine teaching content area skills with the strategies necessary for learning grammar, syntax structure, math, science, and others that students have not been exposed to in a while or never learned. This is also useful for future tests.
- **Full Practice Test:** For extra practice, we provide our students with a full practice test which is then scored. After seeing the results and reviewing the strengths and weaknesses, we can assess and set goals moving forward.
 - We charge a total of \$200 for the practice test
 - A certified teacher will proctor the 3-4 hours and provide a score with an in depth report 24 hours after the test is complete

Summer Transition Program (Half Year and Full Year available in Fall)

- 4 week commitment for a 40 hours total: \$70/hour
- All hours must be completed within a 4 week period

Wise Learning offers a Transition Program which is a one-on-one transition from High School to College. Many students are undecided about the year after high school and our Transition Program can provide a fully customized curriculum based on the student's needs in order to help them reach their goals. A minimum of 10 hours per week is required in order to fill in skill holes from High School, explore areas of interest, and pre-teach information to foster independence through college.

Also available in our Transition Program is support services for part-time college students. Many students start off their college career by taking one or two college courses at a time at a local community college. We use the curriculum from their college courses to help them with task completion, executive function, study skills, time management, test taking, content, and more. In addition, we custom design the best skills for each student in order to help them reach their goals and ensure success throughout their college career. Our goal for each student is to prepare them for a full time college program at the appropriate college of their choice.

Our Transition Program supports students, fosters independence, fills in any foundation skill holes that may exist, and helps them reach their future goals for a lifetime of learning that lasts well beyond college. All curriculum is custom designed for each student based on their individual needs. The first year after high school is an extremely important year and we can help make it a success!

Social Skills Groups

Children who do not have adequate social skills are put at risk for isolation from peers and family, emotional and behavioral problems, and academic underachievement. Research evidence has demonstrated the effectiveness of small, skill-based, interactional groups in improving children's difficulties with social communication and interaction.

- 8 week commitment (Weeks of June 20th-August 15th)
- \$50 per session for a total of 16 sessions
- Days and times will be decided based on what works best for the group

What can be expected?

- Small groups of 4-6 students
- Students grouped based on age and specific needs
- Groups run by a licensed social worker
- Initial screening assessment
- Individualized goals for each child
- Progress notes to track your child's improvement
- Topics covered will be based on the specific needs of each group. However, some topics you can expect include: Greetings and conversation skills, eye contact, identification of feelings, friendship skills, manners, resolving conflict, coping with anger and anxiety

**Individual social skills sessions can also be accommodated but group work is recommended*

**For more information on any of our programs call 203-403-3546
